Website Planning Document.

FGS Weather Forecast.

Author: Mahonrry Barrios, student.

Site Purpose: Provide the most accurate weather forecast in real time and for the next 10 days of Franklin, Greenville and Springfield cities. Also, provide the visitors of the page with information about those cities.

Target Audience: Residents, travelers or any person who wants to know how the weather is or going to be in the next 10 days in Franklin, Greenville and Springfield.

Resident: Residents often check the weather with the purpose of planning their day. Knowing how the weather going to be, they can plan certain activities for the morning, afternoon or for the night. Raining or snowing days could have a big impact in the plans. The 10 days forecast can be useful to plan for the weekend or free days. Residents usually check the weather from mobile devices, been cellphones the most used and, computers the less used.

Travelers: For the people who want to travel to these cities, the knowledge of the weather can have a big impact on their plans. Even the 10 days forecast can be a useful tool with the purpose of planning vacations, visiting relatives, etc. Travelers, check the weather from different devices, been cellphones the most used and, computers the less used. Travel agencies could use computers more than cellphones or tablets.
